Issue 7 July 2003

Finally my battle with the caterpillars is over! Now I am just battling the heat trying and to keep my trees watered.

Bob Beck tells me the last meeting went very well. Dan Laxdall went home with a lot less pots than what he brought to the meeting. He also said there was lots of great "finds" - stones, perennials, trees as well as just socializing. Thanks to everyone who brought something to the meeting. Wish I could have been there maybe we can do this again soon.

This month Charlie Anderson will be restyling an older Shimpaku Juniper (*J. chinensis* 'shimpaku'). He will do a complete redesign of this tree and explain the design principles used to make the decisions. If you have a Shimpaku (or any other kind of tree) you would like help with, bring it in.

Our club experts will help you as time permits. Our tour to Weyerhaeuser has been confirmed for September 20 which

is the third Saturday of the month. We will take in the regular display and also see "behind the scenes". The exact meeting time has yet to be determined, but there will be time should anyone want to check out the Rhododendron Species Garden right next to the Pacific Rim Bonsai Collection. I am still looking for extra content for the

newsletter. So if you have any images, haiku's, stories or

anything bonsai related let me now and will put it in the newsletter. See you Friday!

This months meeting will be held at Olympic College in the shop area room 114 on Friday July 19th 7:00 P.M.
